Garden Spray Material

In answering questions regarding treatment for certain insects and diseases, we recommend various controls. For your convenience, we are stocking these materials:

DDT 25%. A concentrated spray for the control of Thrip and other insects. It is non-poisonous to domestic animals and does not spot foliage or bloom. **½ pint 75c, quart \$1.50.**

DDT 10% DUST. Used where a good duster is available for the control of certain insects. DDT controls Thrip on Gladiolas, most beetles and grubs. **8 ounce 95c, 1 pound \$1.15.**

D-X INSECT SPRAY. An extremely effective and reliable general garden spray. Combines rotenone, pyrethrum and other chemicals to effectively control most pests which attack plant life. Non-poisonous. **1½ ounce 50c, ½ pint \$1.75.**

FERMATE. May be used as a dust or spray, this is a very effective material to combat spore borne diseases such as black spot on roses, rust, rot and blight. A standard fungicide. **8 ounce 75c.**

FLORAL DUST. Controls most insects and diseases if applied before the damage is too advanced. Non-poisonous, this material may be applied as a dust or spray. Use it twice each month during active growing seasons for the most effective control. **8 ounces 79c, 1 pound \$1.15.**

GARDEN SPRAYERS and DUSTERS

- Easy To Operate
- Sturdy Construction
- Modern Design

Modern pest control materials must be applied evenly over the entire plant. Use an implement which will do the job thoroughly and is so easy to operate that a chore becomes a pleasure.
